

## *Wildfire Resilient Forest Coming Soon*

*Funding for this Project provided by the Truckee Fire Protection District as part of the Truckee Fire Measure T Community Wildfire Prevention Fund.*

Glenshire Devonshire Residents' Association in partnership with surrounding HOAs will be implementing a critical fuel reduction and forest health project to protect the community of Glenshire and improve evacuation routes in the event of a wildfire. This work is funded by Measure T through the Community Wildfire Prevention Grant Program.

Work will begin in August 2025. For public safety, pedestrian access to active project areas area will be restricted during operations: Monday-Friday from 7am - 5pm.

Please plan accordingly. If you hear or see equipment working, please do not enter the area. Please do not remove or disturb any flagging in this area as it is important for resource protection measures and to ensure the contractor stays within the permitted work area. If you have any questions or concerns, please visit our website at [www.truckeefire.org/projects](http://www.truckeefire.org/projects) or contact us at 530.582.7888 or email [projects@truckeefire.org](mailto:projects@truckeefire.org).

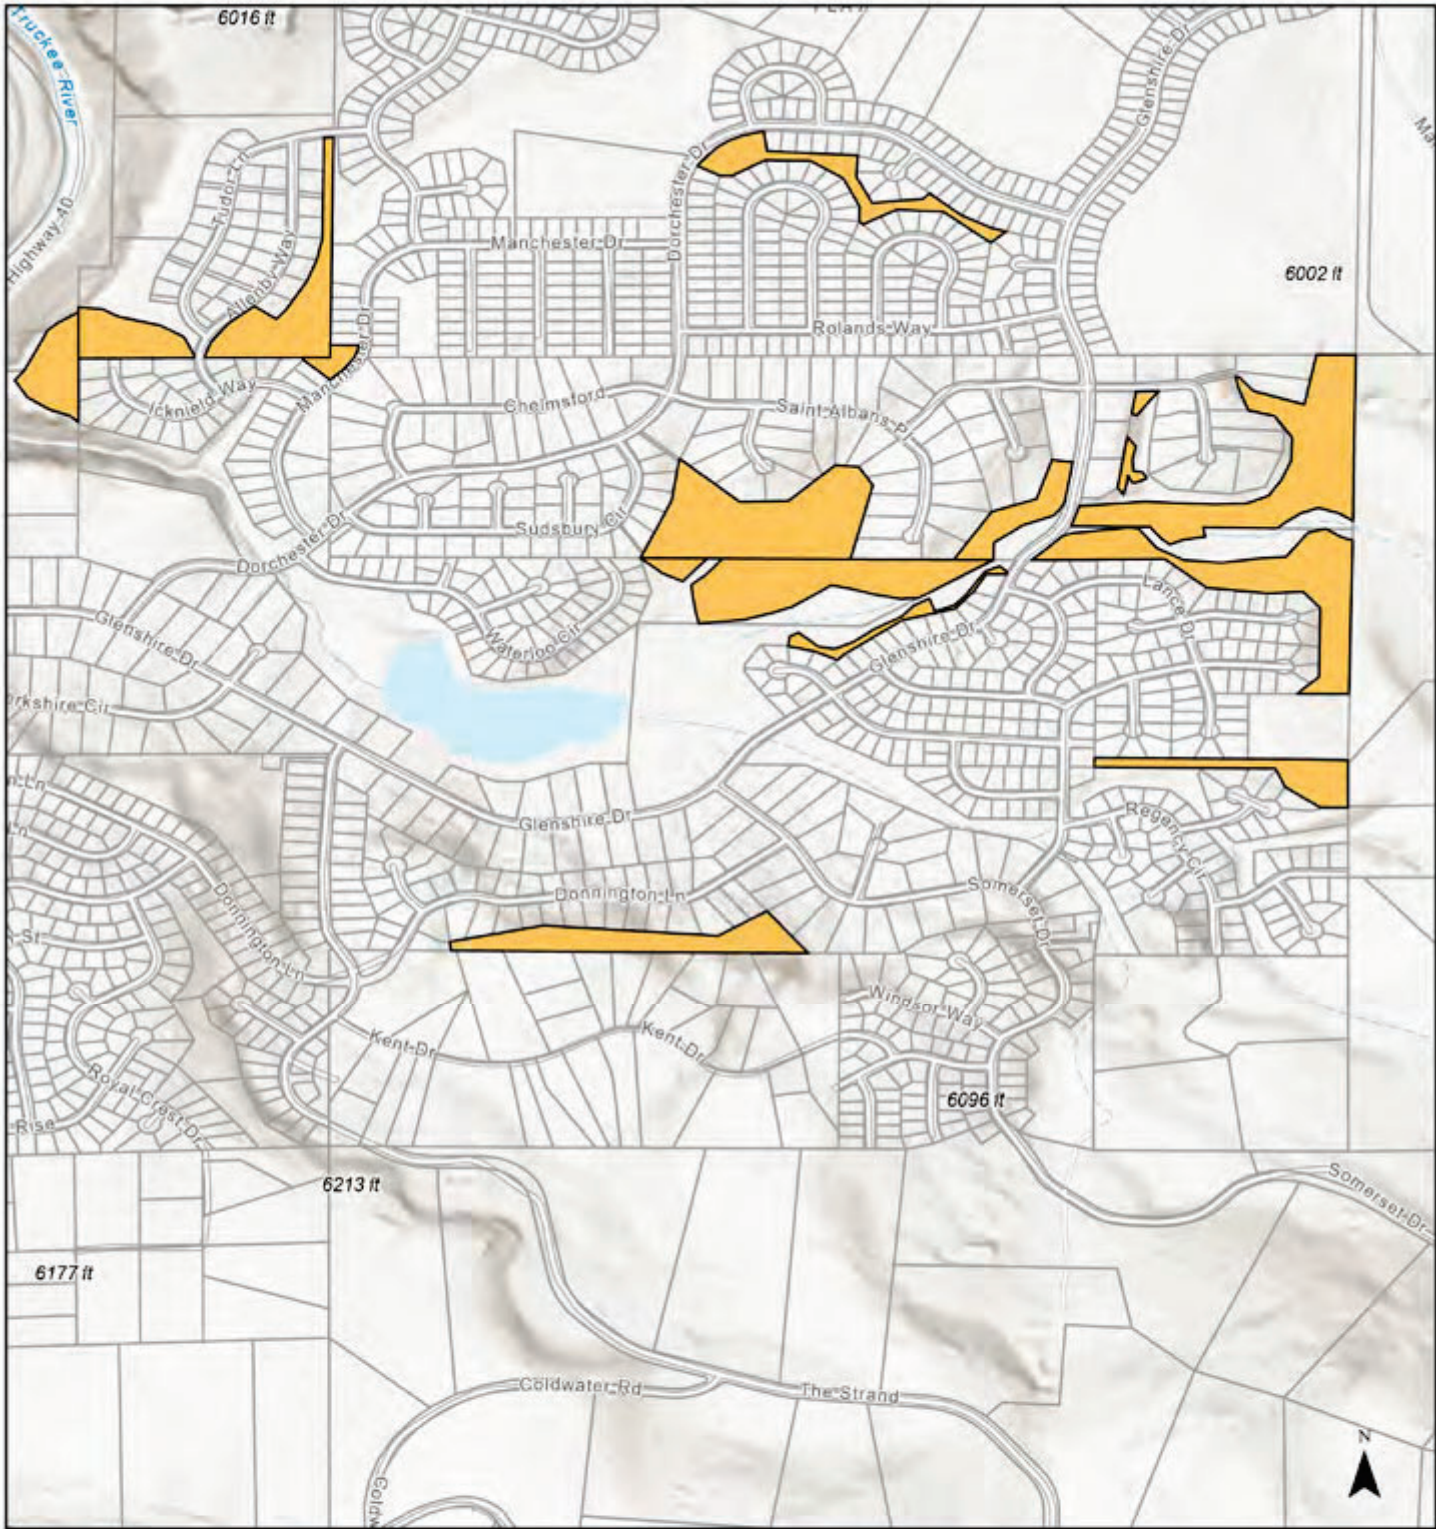

An in-person community information meeting will be held at the Glenshire Clubhouse at 5pm on August 21 to share details on the project and address any questions.
